OFFICE OF REPORTS AND ESTIMATES
DIVISION/EE

16 June 1950

MEMORANDUM FOR: Mr. Babbitt, Chairman ✓

25X1A

FROM :

SUBJECT :

SO Request of 13 June 1950, Regarding International Communist Movements

1. At the recommendation of the Chairman and with the agreement of the members of the Committee, the component units of ORE will attempt to fill the SO request to the extent of their available facilities without, however, assuming responsibility for complete coverage. To that effect the Divisions, represented in the ORE Committee on International Communism, will collect references which show travel movements of (a) individual Communists outside their native countries and (b) delegates to international Communist meetings (including front organization meetings) and the location and time of such meetings.

2. Such references should be extracted during the usual process of reading cables, documents or periodicals and newspapers. No write-up or estimate is required, solely the reference number and type of the cable or document and the title or date of the other publications in which Communist travel movements are mentioned. However, no references of SO documents or FBID reports need be included.

3. As a test run, this working procedure will cover the two week period beginning on Monday, 19 June and end on 30 June. Divisional reports containing the references should be in [redacted] office by the close of business on 30 June. They will then be transmitted to Mr. Metel for a check on their value for SO.
